

REMARKSSpecification Amendment

The amendment to the specification is made to correct an inadvertent error in assigning a sequence listing identification number (SEQ ID NO: 23) to an item described as a "consensus sequence" in a figure (Fig. 33). The item described as a consensus sequence does not represent a sequence which can be listed, but rather generally describes the similarities between the various other sequences in Fig. 33. No new matter has been added by this amendment. Entry is respectfully requested.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.

MARKED UP VERSION OF AMENDMENTS

Specification Amendments Under 37 C.F.R. § 1.121(b)(1)(iii)

Replace the paragraph at page 16, lines 3 through 6 with the below paragraph marked up by way of bracketing and underlining to show the changes relative to the previous version of the paragraph.

Figure 33 shows a comparison of the UBX domains of several proteins including FAF1-UBX (SEQ ID NO: 17), L1UB3 (SEQ ID NO: 18), L1UB2 (SEQ ID NO: 19), Sumo (SEQ ID NO: 20), Ubiquitin (SEQ ID NO: 21) and L1UB1 (SEQ ID NO: 22), as well as a consensus sequence of the domains in the various proteins [(SEQ ID NO: 23)].
